

USAID
FROM THE AMERICAN PEOPLE

Session 1: Environmental Compliance & Environmental Procedures Workshop Overview

Workshop Objectives:

1. Identify at least three reasons why environmentally sound design and management is important to successful development outcomes;
2. Articulate at least three reasons why complying with the Agency's environmental procedures is important to USAID projects;
3. Articulate the key compliance requirements established by USAID's mandatory environmental procedures over life-of-project;
4. Demonstrate basic familiarity with the core environmental impact assessment processes and skills needed for environmental compliance.
5. Articulate responsibilities for environmental compliance.
6. Identify resources available for supporting environmental compliance and best practices.

Introductions

- What is your name?
- Where do you work?
- What is your area of responsibility?
- What is something interesting about yourself that no one else will know?
- What do you particularly expect to learn during the training?
