

Session 18.

Workshop Evaluations

(0:15)

Format

Fill in workshop evaluation form.

Summary

This workshop is intended to deliver the core components necessary to ensure you have the tools you need to comply with USAID's 22 CFR 216 regulation. However, it is also intended to address the challenges you face as a bureau to meeting the requirements of the Reg. 216 process and to provide you additional training on handling unique aspects of operating in the Middle East. Your feedback is essential to strengthen materials and agenda—and to draw attention to Mission and Program TA and support needs for ESDM and environmental compliance, particularly in your region.
