

Special Topic

Pesticide Risks, Safer Use & USAID's Pesticide Procedures

Objective

Brief the environmental, economic and human-health concerns attendant to Pesticide Use. Achieve a common understanding of the special environmental compliance requirements that apply to pesticide use & procurement, and of the key elements of safer pesticide use.

Format:

Presentation and Q&A.

Summary

This sessions summarizes the environmental and health concerns attendant to pesticide use, the key elements of safer pesticide use, and USAID's procedures for environmental review of support to pesticide use and procurement.

These procedures define "use and procurement" broadly and add specific, additional requirements to the general pre-implementation environmental review process established by Reg. 216. These requirements are satisfied via a Pesticide Evaluation Report and Safer Use Action Plan (PERSUAP), which is formally an amendment to the project's IEE. The requirements of the Safer Use Action Plan portion of the PERSUAP are thus IEE conditions and their implementation is mandatory.

Although PERSUAPs are generally developed by specialists, workshop participants may be involved in the review and implementation of PERSUAPs.

USAID policy and procedures regarding pesticide use are described in 22 CFR 216.3(b).
