

Session 7.

Introduction to the *Sector Environmental Guidelines*

Brief presentation + demonstration

Summary

This session will familiarize participants with the ESDM and environmental compliance resources available through various USAID project Web sites. This includes the legacy ENCAP project Web site, as well as the newer GEMS project Web site: www.usaidgems.org.

These resources include:

- The *Sector Environmental Guidelines*
- Visual Field Guides (VFGs)
- Training Materials
- MEO Resource Center
- Other sector-specific resources

The session also summarizes the environmental compliance and ESDM support services available to Missions and implementing partners via the USAID GEMS project.

Objective

Review the key ESDM/environmental compliance resources introduced during the workshop.

Key Resources

- As referenced above
- GEMS Factsheet (attached)
